Re: Proposal Services - Game Platform

Date: 24 August 2020

Dear Sir,

We are pleased to provide you with the proposal for the setting up and maintenance of an affiliate brand under the GamblingTec Platform and under the licence of Sunseven NV.

About GamblingTec

GamblingTec.com is a licensed Curacao casino developed on an affiliate first basis.

What makes our model unique is that affiliates can send referrals directly to our games after setting an affiliate id with the core platform via a hidden iFrame. This removes a number of barriers to entry which ultimately would lead to lost sales.

In addition, affiliates come to recognise affiliate brands as a means to access our pool of games.

About our companies

Sunseven NV was established in 2006 as a licensed remote gambling company under which we build licensed brands and white label casino websites.

Sunseven Games Ltd is our management company which oversees operations, technology and consultancy services.

Process

Our platform is integrated into payment processors, e-wallet solutions, games and an accounting systems, your game software will need to interface with our platform using standard Oauth2 protocols.

We provide to you a comprehensive API in order to integrate with the platform.

Costs

Before a game can go live it needs to be integrated into our sandbox environment and tested.

Name	Description	Fee
Contract costs	Contract costs associated with the service.	€1500 (once off)
License fee	Provides game access to the platform.	€500 (per month)
Game VPS Hosting	A game server for your application.	€95.00 (per month)
Affiliate website	Basic cPanel account used to promote your games	€32.50 (per month)

When your game is ready to go live, it must be approved by the regulator before it can be used. This process can take time and will require you to create a corporate website for your game which must explain how it works. This is important in order to have your game accepted by the regulator.

Game approval	Process to have your game added to our license	€1500
---------------	--	-------

Notes:

If your game uses RNG (Random Number Generator) it will require RNG certification before it will be approved by the regulator.

Commission structures:

Once your game has been approved, it will be made live to our environment. As a game provider to the platform, you are paid a 10% commission of the games GGR. In addition to this, you are paid 70% of any earnings generated through your affiliate website.

Name	Description	Fee
Game provider earnings	Paid on GGR (Gross Gaming Revenue)	10%
Affiliate earnings	Paid on NGR (Net Gaming revenue)	70%

Other

We trust that we have provided you with all the required information. However, should you have any questions or would like further information, please do not hesitate to contact us.

Kind regards,

A handwritten signature in black ink that reads "Brendan Nash". The signature is written in a cursive style with a large, sweeping flourish at the end.
